**PHYTOHEALTH CORPORATION  
PARENT COMPANY ONLY  
FINANCIAL STATEMENTS  
WITH REPORT OF INDEPENDENT AUDITORS  
FOR THE YEARS ENDED  
DECEMBER 31, 2025 AND 2024**

Address: 5F-1., No.167, Fuxing N. Rd., Zhongshan Dist., Taipei City 104, Taiwan (R.O.C.)  
Telephone: 886-2-2545-3697

The reader is advised that these parent company only financial statements have been prepared originally in Chinese. In the event of a conflict between these parent company only financial statements and the original Chinese version or difference in interpretation between the two versions, the Chinese language parent company only financial statements shall prevail.

## **Independent Auditors' Report Translated from Chinese**

To Phytohealth Corporation

### **Opinion**

We have audited the accompanying parent company only balance sheets of Phytohealth Corporation (the "Company") as of December 31, 2025 and 2024, and the related parent company only statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2025 and 2024, and notes to the parent company only financial statements, including the summary of material accounting policies (together "the parent company only financial statements").

In our opinion, the parent company only financial statements referred to above present fairly, in all material respects, the parent company only financial position of the Company as of December 31, 2025 and 2024, and their parent company only financial performance and cash flows for the years ended December 31, 2025 and 2024, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the parent company only Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2025 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Revenue Recognition

The Company recognized operating revenue amounts to NT\$104,139 thousand in 2025. The Company's principal activities consist of revenue from the sale of pharmaceutical drugs, dietary supplements. The Company recognizes revenue from the sale of pharmaceutical drugs, dietary supplements when it satisfies a performance obligation and the recognition timing. Therefore, we considered this a key audit matter.

Our audit procedures include but are not limited to understanding the trading manners through walkthrough, and evaluating the appropriateness of the accounting policy related to revenue recognition from the sale of pharmaceutical drugs, dietary supplements and the transactions made from sales by testing the internal control effectiveness determined by management. We confirm that the timing of recognizing revenue is when performance obligations are met by reviewing the terms of transaction. We confirm the correctness of recognizing revenue from sale of pharmaceutical drugs, dietary supplements, and the existence of sales revenue by performing transactions' detail testing which includes reviewing vouchers of selected samples and cash receipts record. We check transaction records to confirm the occurrence of the revenue. We perform cutoff testing through periods before and after the balance sheet date by reviewing related documentation of selected samples.

Please refer to Note 4 and 6. (15) for revenue related accounting policies and information.

#### Impairment of Assets

As of December 31, 2025, the total net amount of investments accounted for under the equity method, property, plant and equipment, right-of-use assets and intangible assets of the Company was NT\$289,256 thousand, accounted for 14 % of the total assets. The Company is engaged in medical products manufacturing industry. The Company is still at loss position in the year of 2025 because the medical products are still at development stage. As of the balance sheet date, the Company based on the external and internal sources to assess whether there is any indication of impairment. If there is indication of impairment, the impairment testing for above assets is required. The result of impairment evaluation is significant to the parent company only financial statements. Therefore, we consider impairment assessment as a key audit matter.

We have conducted audit procedures including but not limited to obtaining representation letter; to evaluating the impairment indicator and cash generating unit; to obtaining the information on assessing the recoverable amount and assumptions for the annual testing of intangible assets with indefinite life. We also examined the historical and other business' financial information to evaluate whether the assumptions such as sales growth rate, gross margin, operating profit margin, and discount rate applied in the cash flow forecast are reasonable and are in conformity. In Note 4 and 5 of the parent company only financial statements to assess the appropriateness of the accounting policies and disclosures relating to the impairment of assets.

#### **Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements**

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the ability to continue as a going concern of the Company, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee or supervisors, are responsible for overseeing the financial reporting process of the Company.

### **Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements**

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the accompanying notes, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the Company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2025 parent company only financial statements and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

/s/Wang, Yahn- Jyun

PHYTOHEALTH CORPORATION

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

For the Years Ended December 31, 2025 and 2024

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

1. History and organization

Phytohealth Corporation (“the Company”) was incorporated in the Republic of China (the “R.O.C.”) on November 24, 1998 and commenced business on December 1, 2000. The Company primarily engages in the R&D, production, manufacture and sale of pharmaceutical drugs, cosmetics, Class B drugs and dietary supplements. The Company’s Chinese name was modified as of July 4, 2008.

The Company’s shares have been listed on the Taiwan Stock Exchange (“TWSE”) since July 16, 2008.

The Company’s new PG2<sup>®</sup> Lyophilized Injection (“PG2<sup>®</sup>”) is for the treatment of Cancer Related Fatigue (“CRF”), and this new drug’s certificate of pharmaceutical produce (“CPP”) was received in April, 2010. It was the first new prescription drug that was developed and produced in Taiwan and approved by the Taiwan Ministry of Health and Welfare. The new dosage form of PG2<sup>®</sup> Lyophilized Injection (“PG2<sup>®</sup>”) and Oraphine Soft Capsules were approved by the Taiwan Ministry of Health and Welfare and received by the Company in October, 2015 and March, 2020, respectively, in order to enhance productivity and increase the clinical use.

2. Date and procedures of authorization of financial statements for issue

The parent company only financial statements (“The Company”) for the years ended December 31, 2025 and 2024, were authorized for issue by the Board of Directors on February 25, 2026.

3. Newly issued or revised standards and interpretations

(1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Company applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after January 1, 2025. The adoption of these new standards and amendments had no material impact on the Company.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which have been endorsed by FSC, and not yet adopted by the Company as at the date when the Company’s financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 17 “Insurance Contracts”	January 1, 2023
b	Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	January 1, 2026
c	Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026
d	Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7	January 1, 2026

(a) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a company of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a company of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(b) Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7

The amendments include:

- (1) Clarify that a financial liability is derecognised on the settlement date and describe the accounting treatment for settlement of financial liabilities using an electronic payment system before the settlement date.
- (2) Clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.
- (3) Clarify the treatment of non-recourse assets and contractually linked instruments.
- (4) Require additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

(c) Annual Improvements to IFRS Accounting Standards – Volume 11

- (1) Amendments to IFRS 1
- (2) Amendments to IFRS 7
- (3) Amendments to Guidance on implementing IFRS 7
- (4) Amendments to IFRS 9
- (5) Amendments to IFRS 10
- (6) Amendments to IAS 7

(d) Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7

The amendments include:

- (1) Clarify the application of the ‘own-use’ requirements.
- (2) Permit hedge accounting if these contracts are used as hedging instruments.
- (3) Add new disclosure requirements to enable investors to understand the effect of these contracts on a company’s financial performance and cash flows.

The abovementioned standards and amendments are applicable for annual periods beginning on or after January 1, 2026 and have no material impact except for the additional disclosures.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (3) Standards or interpretations issued, revised or amended, by IASB which have not been endorsed by FSC, and not yet adopted by the Company as at the date when the Company’s financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027 (Note)
c	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	January 1, 2027
d	Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)	January 1, 2027

Note: On September 25, 2025, the FSC announced in a press release that Taiwan will adopt IFRS 18 in 2028.

- (a) IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

(b) IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 replaces IAS 1 Presentation of Financial Statements. The main changes are as below:

(1) Improved comparability in the statement of profit or loss (income statement)

IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and requires all entities to provide new defined subtotals, including operating profit or loss. The improved structure and new subtotals will give investors a consistent starting point for analyzing entities' performance and make it easier to compare entities.

(2) Enhanced transparency of management-defined performance measures

IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.

(3) Useful grouping of information in the financial statements

IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

(c) Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)

This new standard and its amendments permit subsidiaries without public accountability to provide reduced disclosures when applying IFRS Accounting Standards in their financial statements. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (d) Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)

The amendments include:

- (1) Clarify that when the entity's functional currency is that of a non-hyperinflationary economy but its presentation currency is the currency of a hyperinflationary economy, the entity shall translate its results and financial position using the closing rate at the date of the most recent statement of financial position.
- (2) In the above circumstances, when the presentation currency ceases to be hyperinflationary economy, the entity shall not retranslate amounts that arose before the beginning of the reporting period.
- (3) When the entity's functional currency and presentation currency are the currency of a hyperinflationary economy, the entity shall apply the relevant accounting treatment in accordance with paragraph 34 of IAS 29.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Company is still currently determining the potential impact of the new or amended standards and interpretations listed under (b), it is not practicable to estimate their impact on the Company at this point in time. The remaining new or amended standards and interpretations have no material impact on the Company.

#### 4. Summary of material accounting policies

- (1) Statement of compliance

The parent company only financial statements of the Company for the years ended December 31, 2025 and 2024 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations").

- (2) Basis of preparation

The Company prepared parent company only financial statements in accordance with Article 21 of the Regulations, which provided that the profit or loss and other comprehensive income for the period presented in the parent company only financial statements shall be the same as the profit or loss and other comprehensive income attributable to stockholders of the parent presented in the consolidated financial statements for the period, and the total equity presented in the parent company only financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements. Therefore, the Company accounted for its investments in subsidiaries using equity method and, accordingly, made necessary adjustments.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The parent company only financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The parent company only financial statements are expressed in thousands of New Taiwan Dollars (“NT\$”) unless otherwise stated.

(3) Foreign currency transactions

The Company’s parent company only financial statements are presented in NT\$, which is also the Company’s functional currency.

Transactions in foreign currencies are initially recorded by the Company at its respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 *Financial Instruments* are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity’s net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(4) Current and non-current distinction

An asset is classified as current when:

- A. The Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- B. The Company holds the asset primarily for the purpose of trading
- C. The Company expects to realize the asset within twelve months after the reporting period
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. The Company expects to settle the liability in its normal operating cycle
- B. The Company holds the liability primarily for the purpose of trading
- C. The liability is due to be settled within twelve months after the reporting period
- D. The Company does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

(5) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within three months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(6) Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 *Financial Instruments* are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A. Financial instruments: Recognition and Measurement

The Company accounts for regular way purchase or sales of financial assets on the trade date.

The Company classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) the Company's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
  - (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
  - (ii) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

In addition, for the equity instruments that are covered by the International Financial Reporting Standards No. 9, and the equity instruments are neither held for trading nor contingent consideration recognized by the acquirer in the business combination of International Financial Reporting Standard No. 3, when initially recognized, they selected (irrevocable) to report their subsequent changes in fair value in other comprehensive income. The amount presented in other comprehensive profit or loss cannot subsequently be transferred to profit or loss (when the disposal of these equity instruments, the cumulative amount of other equity items will be directly transferred to the retained earnings) and measured at fair value through other comprehensive income. The financial assets are presented on the balance sheet. Dividends on investments are recognized in profit or loss unless the dividend clearly represents a recovery of part of the investment costs.

Financial assets at fair value through profit or loss

Except for the aforesaid situations in which certain conditions are met and measured at post-amortization costs or at fair value through other comprehensive income, financial assets are measured at fair value through profit or loss, and financial assets at fair value through profit or loss are presented on balance sheet.

Financial assets at fair value through profit or loss are measured at fair value with changes in fair value recognized in profit or loss. Dividends or interests on financial assets at fair value through profit or loss are recognized in profit or loss.

**B. Impairment of financial assets**

The Company recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the statement of financial position.

The Company measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The loss allowance is measures as follow:

- (a) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Company measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- (b) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d) For lease receivables arising from transactions within the scope of IFRS 16, the Company measure the loss allowance at an amount equal to life time expected credit losses.

At each reporting date, the Company needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

#### C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired
- (b) The Company has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- (c) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

D. Financial liabilities and equity

Classification between liabilities or equity

The Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 *Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(7) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(8) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Raw materials – Purchase at actual cost, on a weighted average basis

Finished goods and work in progress – Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Rendering of services is accounted in accordance with IFRS 15 and not within the scope of inventories.

(9) Investments accounted for using the equity method

According to Art. 21 of Regulation Governing the Preparation of Financial Reports by Securities Issuers, the Company's investments in its subsidiaries are presented as Investments accounted for using equity method with necessary adjustments so that the net income and other comprehensive income of individual financial report equal the net income and other comprehensive income attributed to the parent of consolidated financial report, and that the shareholder's equity of individual financial report equals the shareholder's equity attributed to the parent of consolidated financial report. Considering the accounting treatment for investment in subsidiaries specified in IFRS 10 "Consolidated Financial Reports", and the different accounting treatments for different level of investees, necessary adjustments are made by debiting or crediting "Investments accounted for using equity method", "Share of profit or loss of subsidiaries, associates and joint ventures accounted for using equity method", and "Share of other comprehensive income of subsidiaries, associates and joint ventures accounted for using equity method".

The Company's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Company has significant influence.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Under the equity method, the investment in the associate is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Company's share of net assets of the associate. After the interest in the associate is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate. Unrealized gains and losses resulting from transactions between the Company and the associate are eliminated to the extent of the Company's related interest in the associate.

When changes in the net assets of an associate occur and not those that are recognized in profit or loss or other comprehensive income and do not affect the Company's percentage of ownership interests in the associate, the Company recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate on a prorate basis.

When the associate issues new stock, and the Company's interest in an associate is reduced or increased as the Company fails to acquire shares newly issued in the associate proportionately to its original ownership interest, the increase or decrease in the interest in the associate is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Company disposes the associate.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

The Company determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures*. If this is the case the Company calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 *Impairment of Assets*. In determining the value in use of the investment, the Company estimates:

- A. Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 *Impairment of Assets*.

Upon loss of significant influence over the associate, the Company measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(10) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Building and structures	43 years
Machinery and equipment	5~15 years
Office equipment	5~10 years
Other equipment	5~10 years
Lease Improvements	The shorter of lease terms or economic useful lives

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

(11) Leases

The Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximising the use of observable information.

Company as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Company recognizes right-of-use assets and lease liability for all leases which the Company is the lessee of those lease contracts.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Company measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use assets at cost. The cost of the right-of-use assets comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use assets, the Company measures the right-of-use assets at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use assets applying a cost model.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

If the lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-use assets reflects that the Company will exercise a purchase option, the Company depreciates the right-of-use assets from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Company depreciates the right-of-use assets from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term.

The Company applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Company accounted for as short-term leases or leases of low-value assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Company as a lessor

At inception of a contract, the Company classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Company recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Company allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(12) Intangible asset

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditures, on an individual project, are recognized as an intangible asset when the Company can demonstrate:

- A. The technical feasibility of completing the intangible asset so that it will be available for use or sale
- B. Its intention to complete and its ability to use or sell the asset
- C. How the asset will generate future economic benefits
- D. The availability of resources to complete the asset
- E. The ability to measure reliably the expenditure during development

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Following initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. During the period of development, the asset is tested for impairment annually. Amortization of the asset begins when development is complete, and the asset is available for use. It is amortized over the period of expected future benefit.

A summary of the policies information applied to the Company’s intangible assets is as follows:

	Computer software
Useful lives	Finite
Amortization method used	Amortized on a straight- line basis over the estimated useful life
Internally generated or acquired	Acquired
Amortization lives	3~5 years

(13) Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s (“CGU”) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Companies of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset’s or cash-generating unit’s recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(14) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probably that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The liability to pay a levy is recognized progressively if the obligating event occurs over a period of time.

(15) Revenue recognition

The revenue from the contract between the Company and the customer mainly includes sales of goods and licensing income. The accounting treatments are described as follows:

Sales of goods

Revenue from sales of goods is recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main products of the Company are pharmaceutical drugs, dietary supplements, medical diagnosis system and medical devices. The Company recognizes revenue from the description of the contracts.

The credit period of the Company's sale of goods is 90 days. For most of the contracts, when the Company transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Company usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. However, for some contracts, part of the consideration was received from customers upon signing the contract, and the Company has the obligation to provide the services subsequently; accordingly, these amounts are recognized as contract liabilities.

Rendering of services

The Company charged a service fee by rendering medical equipment installation service and by rendering maintenance service. Revenue from rendering of services is recognized when the service is completed. The timing of recognizing revenue is when performance obligations are met.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(16) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

(17) Post-employment benefits

All regular employees of the Company are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company. Therefore, fund assets are not included in the Company's parent company only financial statements.

For the defined contribution plan, the Company will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

(18) Share-based payment transactions

The cost of equity-settled transactions between the Company and its employee is recognized based on the fair value of the equity instruments granted. The fair value of the equity instruments is determined by using an appropriate pricing model.

The cost of equity-settled transactions is recognized, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The income statement expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period.

No expense is recognized for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the entity or the employee are not met. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(19) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

According to the temporary exception in the International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12), information about deferred tax assets and liabilities related to Pillar Two income tax will neither be recognized nor be disclosed.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Company's parent company only financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

A. Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. Please see detailed explanations in Note 6.

(12) Post-employment benefits

Defined contribution plan

The Company adopts a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Act, monthly contributions shall not be less than 6% of the employees' monthly wages. The Company has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Expenses under the defined contribution plan for the year ended December 31, 2025 and 2024 were NT\$2,152 thousand and NT\$1,961 thousand, respectively.

(13) Equities

A. Common stock

- (a) The Company's authorized capital were both NT\$3,000,000 thousand as of December 31, 2025 and 2024; while the issued capital were all NT\$1,986,189 thousand. The Company has authorized capital were all 300,000 thousand shares and were all 198,619 thousand common shares, each at a par value of NT\$10, entitled to voting rights and to the receipt of distributed dividends. All of the shares are common stock.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (b) On June 16, 2009, in the meeting of shareholders, a resolution to issue 12,861 thousand private shares with the same rights and obligations as ordinary shares was passed. However, the Company could not achieve the earnings criteria, so the private shares still have not be transferred for public trading.
- (c) The Company was authorized to issue employee share option. Each unit entitles an optionee to subscribe for 1,000 shares of the Company's common shares. Please refer to Note 6. (14) for more details on above-mentioned share-based payment transactions.

B. Capital surplus

	As of	
	December 31, 2025	December 31, 2024
Changes in ownership interests	\$5,018	\$5,018
Employee stock options	1,331	835
Total	\$6,349	\$5,853

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

C. Retained earnings and dividend policies

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- (a) Payment of all taxes and dues;
- (b) Offset prior years' operation losses;
- (c) Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve;
- (d) Set aside or reverse special reserve in accordance with law and regulations; and
- (e) Proposing a distribution plan by the Company's board of directors, but only a fraction of 10% of any remaining profit together with any undistributed retained earnings, and which should be resolved in the shareholders' meeting for the distribution of dividends and bonus to shareholders.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Company's dividend distribution policy must consider the current and future investment environment, funding needs, domestic and international competitiveness, and capital budgeting, while balancing shareholder interests and the Company's long-term financial planning. Dividends will be distributed in appropriate proportions of cash dividends and stock dividends. If stock dividends are distributed, they shall account for at least 10% of the total dividends for the year. Each year, the Board of Directors will prepare a distribution proposal to be submitted to the shareholders' meeting. For information regarding the basis for estimating employee compensation and director remuneration, as well as the amounts recognized, please refer to Note 6. (18).

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

Pursuant to existing regulations, the Company is required to set aside additional special reserve equivalent to the net debit balance of the other components of shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

The shareholder's meetings approved the 2024 and 2023 earnings distribution on June 4, 2025 and May 28, 2024, respectively ; the company resolved not to distribute earnings since the accumulated deficits had yet to be covered.

The board of directors approved the 2025 earnings distribution on February 25, 2026, the company resolved not to distribute earnings since the accumulated deficits had yet to be covered.

(14) Share-based payment plans

Certain employees of the Company are entitled to share-based payment as part of their remunerations. Services are provided by the employees in return for the equity instruments granted. These plans are accounted for as equity-settled share-based payment transactions.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A. Share-based payment plan for employees of the parent entity

The Company was authorized on January 10, 2018 and July 5, 2023 by the Securities and Futures Bureau of the FSC, Executive Yuan, to issue employee share options with a total number of 200 units and 1,000 units. Each unit entitles the holder to subscribe for 1,000 shares of the Company's ordinary shares, and the exercise price of the options was set as at the closing price of the Company's ordinary shares on the grant date. The option holders may exercise the options in accordance with certain schedules as prescribed by the plan starting 2 years from the grant date. Settlement upon the exercise of the options will be made through the issuance of new shares by the Company.

The fair value of the share options is estimated at the grant date using a Black-Scholes option pricing-model, taking into account the terms and conditions upon which the share options were granted.

The relevant details of the aforementioned share-based payment plan are as follows:

Date of grant	Total number of share options granted (in unit)	Exercise price of share options (NT\$)
2018.07.31	50	\$21.50
2023.08.02	115	\$22.00
2025.04.30	285	\$13.30

The following table contains further details on the aforementioned share-based payment plan:

	For the years ended December 31,			
	2025		2024	
	Number of share options outstanding (in unit)	Weighted average exercise price of share options (NT\$)	Number of share options outstanding (in unit)	Weighted average exercise price of share options (NT\$)
Outstanding at beginning of period	145.0	\$21.90	145.0	\$21.90
Granted	285.0	13.30	-	-
Forfeited	(40.0)	18.70	-	-
Expired	(30.0)	21.90	-	-
Outstanding at end of period	<u>360.0</u>	<u>\$15.40</u>	<u>145.0</u>	<u>\$21.90</u>
Exercisable at end of period	<u>45</u>		<u>30</u>	
For share options granted during the period, weighted average fair value of those options at the measurement date (NT\$)	<u>\$3.4689</u>		<u>\$-</u>	

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The information on the outstanding share options as of December 31, 2025 and 2024 is as follows:

	Range of exercise price	Weighted average remaining contractual life (Years)
As of December 31, 2025		
share options outstanding at the end of the period	\$22.00	2.58
share options outstanding at the end of the period	\$13.30	3.32
As of December 31, 2024		
share options outstanding at the end of the period	\$21.50	0.58
share options outstanding at the end of the period	\$22.00	3.58

The following table lists the inputs to the model used for the plan granted on August 2, 2023 and April 30, 2025:

	2023.08.02	2025.04.30
Dividend yield (%)	-	-
Expected volatility (%)	40.52%	30.99%
Risk-free interest rate (%)	1.07%	1.42%
Expected option life (Years)	3.88	3.88
Weighted average share price (\$)	\$22.00	\$13.30
Option pricing model	Black-Scholes	Black-Scholes

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

**B. Modification or cancellation of the share-based payment plan for employees**

There have been no cancellations or modifications to any of the plans for the years ended December 31, 2025 and 2024.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

C. The expense recognized for employee services received for the years ended December 31, 2025 and 2024, is shown in the following table.

	<u>For the years ended December 31,</u>	
	<u>2025</u>	<u>2024</u>
Total expense arising from equity-settled share-based payment transactions	<u>\$496</u>	<u>\$327</u>

(15) Operating revenue

A. Disaggregation of revenue

	<u>For the years ended December 31,</u>	
	<u>2025</u>	<u>2024</u>
Revenue from contracts with customers		
Sale of goods	\$103,773	\$98,902
Rendering of services	297	1,485
Others contract revenue	69	72
Total	<u>\$104,139</u>	<u>\$100,459</u>

All the revenues of the Company are recognized when they satisfy the performance obligation and the recognition timing.

B. Contract balances

Contract liabilities, current

	<u>As of</u>		
	<u>December 31,</u>	<u>December 31,</u>	<u>January 1,</u>
	<u>2025</u>	<u>2024</u>	<u>2024</u>
Sales revenue	<u>\$675</u>	<u>\$675</u>	<u>\$675</u>

Management expects that the unsatisfied performance obligations will be recognized as revenue during the year 2026.

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(16) Expected credit loss

	For the years ended December 31,	
	2025	2024
Operating expenses-expected credit loss		
Accounts receivable	\$-	\$2

Please refer to Note 12 for more details on credit risk.

The credit risk for the Company's financial assets measured at amortized cost is assessed as low. Because the company's trading counterparties are reputable banks and other financial institutions. Therefore, the loss allowance is measured at an amount equal to 12-month expected credit losses (loss rates 0%).

The Company measures the loss allowance of its trade receivable at an amount equal to lifetime expected credit losses.

The Company considers the historical credit loss experience for accounts receivable (including related parties) shows that different customer segments do not have significantly different loss patterns. Therefore, the loss allowance of contract assets is measured at an amount equal to lifetime expected credit losses and with no distinction between groups, details are as follow:

As of December 31, 2025	Not yet due	Overdue				Total
		<=90 days	91~180 days	181~365 days	>=366 days	
Gross carrying amount	\$26,993	\$-	\$-	\$-	\$2	\$26,995
Loss ratio	-	-	-	-	100%	
Lifetime expected credit losses	-	-	-	-	(2)	(2)
Carrying amount						\$26,993

As of December 31, 2024	Not yet due	Overdue				Total
		<=90 days	91~180 days	181~365 days	>=366 days	
Gross carrying amount	\$19,912	\$-	\$-	\$-	\$2	\$19,914
Loss ratio	-	-	-	-	100%	
Lifetime expected credit losses	-	-	-	-	(2)	(2)
Carrying amount						\$19,912

PHYTOHEALTH CORPORATION

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(e) Other information relating to leasing activities

(i) Extension and termination options

Some of the Company's agreement contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Company has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Company. After the commencement date, the Company reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Company is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

(18) Summary statement of employee benefit, depreciation and amortization expenses by function were as follows:

	For the years ended December 31,					
	2025			2024		
	Operating cost	Operating expenses	Total amount	Operating cost	Operating expenses	Total amount
Employee benefits expense						
Salaries	\$9,673	\$35,059	\$44,732	\$7,887	\$32,726	\$40,613
Labor and health insurance	1,412	2,479	3,891	1,236	2,390	3,626

Amortization	-	96	96	-	95	95

The average headcounts of the Company were 55 and 54, including both 10 non-employee directors for the years ended December 31, 2025 and 2024.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The average employee benefits expenses of the Company were NT\$1,165 thousand and NT\$1,084 thousand for the years ended, 2025 and 2024, respectively.

The average salaries expenses of the Company were NT\$994 thousand and NT\$923 thousand for the years ended 2025 and 2024, respectively; while the variance was 7.69%. Based on the Company has established the Audit Committee in replacement of supervisors, therefore the supervisors' remuneration were not estimated.

According to the wages and salaries policy of the Company, the payment depends on the position compared to the average salaries of comparable corporations in the market, on the responsibilities of the position, and on the contributions to the operational goal. The directors decide the salaries rely on the degree of the participation on the operation and the value of the contributions and refer to the domestic and abroad comparable companies' average salaries. In addition, the Company evaluates the salaries of the management through the rules of the management's salaries. The salaries of the directors and the managers are adopted by the Remuneration Committee and reported to the Board of Directors for resolution.

According to the Company's Articles of Incorporation, 3%~6% of profit of the current year is distributable as employees' compensation and no higher than 4% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of board of directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition, thereto a report of such distribution is submitted to the shareholders' meeting. Information on the board of directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on profit of the years ended December 31, 2025 and 2024, the Company estimated the amounts of the employee bonuses and remuneration to directors and supervisors to be both NT\$0 thousand.

2023	21,079	21,079	21,079	2033
2024	48,385	48,385	48,385	2034
2025	28,646	28,646	-	2035
	<u>\$1,120,643</u>	<u>\$917,868</u>	<u>\$1,091,997</u>	

D. Unrecognized deferred tax assets

As of 31 December 2025 and 2024, deferred tax assets have not been recognized in respect of unused tax losses and deductible temporary differences amounting to NT\$1,165,479 thousand, and NT\$1,126,738 thousand, respectively, as the future taxable profit may not be available.

E. The assessment of income tax returns

As of December 31, 2025, the assessment of the income tax returns of the Company is as follows:

	<u>The assessment of income tax returns</u>
The Company	Assessed and approved up to 2023

(22) Loss per share

Basic loss per share amounts are calculated by dividing net loss for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Diluted gain per share amounts are calculated by dividing the net loss attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	For the years ended December 31,	
	2025	2024
Net loss attributable to ordinary equity holders of the Company (in thousand NT\$)	\$(58,199)	\$(73,501)
Weighted average number of ordinary shares outstanding for basic earnings per share (thousand shares)	198,619	198,619
Basic earnings per share (in NT\$)	\$(0.29)	\$(0.37)

The Company's employee stock options have anti-dilutive effect when the Company encounters loss. Therefore, calculations of diluted loss per share is no required.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date the financial statements were authorized for issue.

Lease liabilities	10,977	7,469
Total	<u>\$31,789</u>	<u>\$34,399</u>

(2) Financial risk management objectives and policies

The Company's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Company identifies measures and manages the aforementioned risks based on the Company's policy and risk appetite.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Company has established appropriate policies, procedures and internal controls for the aforementioned financial risk management in accordance with the relevant regulations. Important financial activities have to be reviewed by the board of directors and the audit committee in accordance with relevant regulations and internal control systems. During the implementation of the financial management activities, the Company must strictly comply with the relevant provisions of the financial risk management.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense are denominated in a different currency from the Company's functional currency). The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Company's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period.

The Company's foreign currency risk is mainly related to the volatility in the exchange rates for USD. Because the amount of non-functional currency is immaterial, there was no significant foreign currency risk for the years ended December 31, 2025 and 2024.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's bank deposit with variable interest rates and guarantee deposit received.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as of the end of the reporting period, including bank deposit with variable interest rates and guarantee deposit received. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit for the years ended December 31, 2025 and 2024 to decrease/increase by NT\$699 thousand and NT\$709 thousand, respectively.

Equity price risk

The fair value of the Company's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company's listed and unlisted equity securities are classified under financial assets measured at fair value through other comprehensive income. The Company manages the equity price risk through diversification and placing limits on individual and total equity instruments.

A change of 5% in the price of the listed companies stocks classified as equity instrument investments measured at fair value through other comprehensive income could cause the other comprehensive income for the years ended December 31, 2025 and 2024 to increase/decrease by NT\$31,008 thousand and NT\$34,542 thousand, respectively.

Please refer to Note 12. (8) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4) Credit risk management

The Company's exposure to credit risk arises from potential default of the counterparty or other third party. The level of exposure depends on several factors including concentrations of credit risk, components of credit risk, the price of contract and customer credit policy. For the years ended December 31, 2025, and 2024, the Company's credit risk amount is estimated from the contracts with positive fair value on the balance sheet date.

The Company's exposure to credit risk arising from the default of counterparties is limited to the carrying amount of these instruments. The Company mitigates the credit risks from financial institutions by limiting its counterparties to only reputable domestic or international financial institutions with good credit standing and the Company has no derivative financial instrument transactions. Consequently, there is no significant credit risk for these counterparties.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit limits are established for all customers based on their financial position, ratings from credit rating agencies, historical experience, prevailing economic condition and the Company's internal rating criteria etc. The Company's exposure to credit risk arising from the default of counterparties is limited to the carrying amount of accounts receivable and notes receivable.

The Company adopted IFRS 9 to assess the expected credit losses Except for the loss allowance of trade receivables is measured at lifetime expected credit losses, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories. The Company makes an assessment at each reporting date as to whether the credit risk still meets the conditions of low credit risk and then further determines the method of measuring the loss allowance and the loss ratio.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5) Liquidity risk management

The Company's investment in the financial assets accounted for at fair value through profit or loss has active market. The Company expected the financial assets to be sold easily in the market at a price close to fair value. The Company is not expected to have liquidity risk. The table below summarizes the maturity profile of the Company's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest.

Non-derivative financial liabilities

	Less than				Total
	1 year	2 to 3 years	4 to 5 years	> 5 years

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Company to measure or disclose the fair values of financial assets and financial liabilities:

- (a) The carrying amount of cash and cash equivalents, accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- (b) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.
- (c) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- (d) Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- (e) The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Fair value of financial instruments measured at amortized cost

Other than cash and cash equivalents, accounts receivables, accounts payable and other current liabilities whose carrying amount approximate their fair value, the fair value of the Company's financial assets and financial liabilities measured at amortized cost is listed in the table below:

	Carrying amount as of	
	December 31, 2025	December 31, 2024
Financial assets:		
Financial assets at amortized cost	\$635,602	\$702,427
	Fair value as of	
	December 31, 2025	December 31, 2024
Financial assets:		
Financial assets at amortized cost	\$635,602	\$702,427

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12. (8) for fair value measurement hierarchy for financial instruments of the Company.

(8) Fair values measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.

Level 3: Unobservable inputs for the assets or liabilities.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Fair value measurement hierarchy of the Company's assets and liabilities

The Company does not have assets that are measured at fair value on non-recurring basis. Fair value measurement hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis is as follows:

As of December 31, 2025

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets:				
Financial assets at fair value through profit or loss				
Listed open-ended fund	\$2,500	\$-	\$-	\$2,500
Financial assets at fair value through other comprehensive income				
Equity instrument measured at fair value through other comprehensive income				
Stock of listed company	\$620,165	\$-	\$-	\$620,165
Stock of unlisted company	-	-	41,807	41,807
Debt instrument investments measured at fair value through other comprehensive income				
Corporate bonds	100,000	-	-	100,000

As of December 31, 2024

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets:				
Financial assets at fair value through profit or loss				
Listed open-ended fund	\$8,000	\$-	\$-	\$8,000
Financial assets at fair value through other comprehensive income				
Equity instrument measured at fair value through other comprehensive income				
Stock of listed company	\$690,835	\$-	\$-	\$690,835
Stock of unlisted company	-	-	32,487	32,487

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Transfers between Level 1 and Level 2 during the period

During the years ended December 31, 2025 and 2024, there were no transfers between Level 2 and Level 1 fair value measurements.

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy for movements during the period is as follow:

	Financial assets at fair value through other comprehensive income	
	As of	
	December 31, 2025	December 31, 2024
Beginning balances	\$32,487	\$31,564
Unrealized losses from financial assets measured at fair value through other comprehensive income	9,320	923
Disposal	-	-
Ending balances	<u>\$41,807</u>	<u>\$32,487</u>
Unrealized losses	<u>\$9,320</u>	<u>\$923</u>

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurement categorized within Level 3 of the fair value hierarchy is as follow:

As of December 31, 2025

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Asset-based approach	Discount for lack of marketability	10%~20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in decrease/ increase in the Company's equity by NT\$11,820 thousand

PHYTOHEALTH CORPORATION  
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS  
For the Years Ended December 31, 2025 and 2024  
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

As of December 31, 2024

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Asset-based approach	Discount for lack of marketability	10%~20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in decrease/increase in the Company's equity by NT\$11,057 thousand

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The external evaluation institute ensures the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Company's accounting department analysis the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies at each reporting date.

C. Fair value measurement hierarchy of the Company's assets and liabilities not measured at fair value but for which the fair value is disclosed.

As of December 31, 2025

	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value but for which the fair value is disclosed:				
Financial assets measured at amortized cost	\$635,602	\$-	\$-	\$635,602

As of December 31, 2024

	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value but for which the fair value is disclosed:				
Financial assets measured at amortized cost	\$702,427	\$-	\$-	\$702,427

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(9) Capital risk management

The primary objective of the Company's capital management is to ensure that it continues to operate and maintains an optimal capital structure in order to reduce the capital cost. The strategy of the Company in 2025 is the same as that in 2024. The Company did not borrow cash from banks and monitored the capital by debt to equity ratio. The Company's debt to equity ratio is as follow (in thousands):

	As of	
	December 31, 2025	December 31, 2024
Total liabilities	\$37,542	\$40,135
Total equity	\$1,872,785	\$1,901,360
Ratio	2.00%	2.11%

(10) Significant assets and liabilities denominated in foreign currencies

There is no significant assets and liabilities denominated in foreign currencies for the years ended December 31, 2025 and 2024.

13. Other disclosure

(1) Information of significant transactions:

A. Financing provided to others: None.

B. Endorsement/Guarantee provided to others: None.

C. Securities held: Please refer to Attachment 1.

D. Individual securities acquired or disposed of with accumulated amount exceeding the lower of NT\$300 million or 20% of the capital stock: None.

E. Acquisition of individual real estate with amount exceeding the lower of NT\$300 million or 20% of the capital stock: None.
