CONSOLIDATED FINANCIAL STATEMENTS
WITH REPORT OF INDEPENDENT ACCOUNTANTS
FOR THE SIX-MONTH PERIODS ENDED
JUNE 30, 2026 and 2025

Address: 5F-1., No.167, Fuxing N. Rd., Zhongshan Dist., Taipei City 104, Taiwan (R.O.C.)
Telephone: 886-2-2545-3697

The reader is advised that these consolidated financial statements have been prepared originally in Chinese. In the event of a conflict between these consolidated financial statements and the original Chinese version or difference in interpretation between the two versions, the Chinese language consolidated financial statements shall prevail.

Review Report of Independent Accountants Translated from Chinese

To Phytohealth Corporation

Introduction

We have reviewed the accompanying consolidated balance sheets of Phytohealth Corporation (the “Company”) and its subsidiaries as of June 30, 2026 and 2025, the related consolidated statements of comprehensive income for the three-month and six-month periods ended June 30, 2026 and 2025, and consolidated statement of change in equity and cash flows for the six-month periods ended June 30, 2026 and 2025, and notes to the consolidated financial statements, including the summary of material accounting policies (together “the consolidated financial statements”). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Standard on Review Engagements 2410, “Review of Financial Information Performed by the Independent Auditor of the Entity” of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing of the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group and its subsidiaries as at June 30, 2026 and 2025, and its consolidated financial performance for the three-month and six-month periods ended June 30, 2026 and 2025, and its consolidated cash flows for the six-month periods ended June 30, 2026 and 2025, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

Notice to Readers

The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice. As the financial statements are the responsibility of the management, Ernst & Young cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

English Translations of Consolidated Financial Statements Originally Issued in Chinese

PHYTOHEALTH CORPORATION AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six-month periods ended June 30, 2026 and 2025

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

1. History and organization

Phytohealth Corporation (the “Company”) was incorporated in the Republic of China (the “R.O.C.”) on November 24, 1998 and commenced business on December 1, 2000. The Company primarily engages in the R&D, production, manufacture and sale of pharmaceutical drugs, cosmetics, Class B drugs and dietary supplements. The Company’s Chinese name was modified as of July 4, 2008. The Company’s registered office and the main business location is at 5F, No.167, Fuxing N. Rd., Zhongshan Dist., Taipei City, Taiwan (R.O.C.).

The Company’s shares have been listed on the Taiwan Stock Exchange (“TWSE”) since July 16, 2008.

The Company’s new PG2[®] Lyophilized Injection (“PG2[®]”) is for the treatment of Cancer Related Fatigue (“CRF”), and this new drug’s certificate of pharmaceutical product (“CPP”) was received in April 2010. It was the first new prescription drug that was developed and produced in Taiwan and approved by the Taiwan Ministry of Health and Welfare. It was successfully produced, marketed, and supplied to large medical centers and hospitals. The new dosage form of PG2[®] Lyophilized Injection (“PG2[®]”) and Oraphine Soft Capsules were approved by the Taiwan Ministry of Health and Welfare and received by the Company in October 2015 and March 2020, respectively, in order to enhance productivity and increase the clinical use.

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries (“the Group”) for the six-month periods ended June 30, 2026 and 2025 were authorized for issue by the Board of Directors on July 31, 2026.

3. Newly issued or revised standards and interpretations

- (1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after 1 January 2026. The adoption of these new standards and amendments has no material impact on the Group.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (2) Standards or interpretations issued, revised or amended, by IASB which have been endorsed by FSC, and not yet adopted by the Group as at the date when the Group's financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 18 "Presentation and Disclosure in Financial Statements"	1 January 2027 (Note)
b	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	1 January 2027
c	Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)	1 January 2027
d	Amendments to the Fair Value Option for Investments in Associates and Joint Ventures (Amendments to IAS 28)	1 January 2027 (Note)

Note: On 25 September 2025, the FSC announced in a press release that Taiwan will adopt IFRS 18 in 2028. In addition, entities in Taiwan with a need for early adoption may elect to early adopt IFRS 18.

A. IFRS 18 "Presentation and Disclosure in Financial Statements"

IFRS 18 replaces IAS 1 Presentation of Financial Statements. The main changes are as below:

- (a) Improved comparability in the statement of profit or loss (income statement)
IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and requires all entities to provide new defined subtotals, including operating profit or loss. The improved structure and new subtotals will give investors a consistent starting point for analyzing entities' performance and make it easier to compare entities.
- (b) Enhanced transparency of management-defined performance measures
IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.
- (c) Useful grouping of information in the financial statements
IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)

This new standard and its amendment permit subsidiaries without public accountability to provide reduced disclosures when applying IFRS Accounting Standards in their financial statements. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.

C. Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)

The amendments include:

- (a) Clarify that when the entity's functional currency is that of a non-hyperinflationary economy but its presentation currency is the currency of a hyperinflationary economy, the entity shall translate its results and financial position using the closing rate at the date of the most recent statement of financial position.
- (b) In the above circumstances, when the presentation currency ceases to be hyperinflationary economy, the entity shall not retranslate amounts that arose before the beginning of the reporting period.
- (c) When the entity's functional currency and presentation currency are the currency of a hyperinflationary economy, the entity shall apply the relevant accounting treatment in accordance with paragraph 34 of IAS 29.

D. Amendments to the Fair Value Option for Investments in Associates and Joint Ventures (Amendments to IAS 28)

The amendments are:

- (a) Clarify that the entity that has a main business activity of investing in particular types of assets (as set out in paragraph 49(a) of IFRS 18) is eligible to elect the fair value option in IAS 28; and
- (b) Require the entity to apply the amendments to IAS 28 at the same time, and on the same basis, as it applies IFRS 18.

The abovementioned standards, amendments and interpretations have been issued by the IASB, endorsed by the FSC, and are effective for annual reporting periods beginning on or after 1 January 2027. Except for the standards, amendments and interpretations described in A, which are expected to affect the presentation and disclosures of the Group's financial statements, the Group has assessed that the remaining new or amended standards and interpretations have no material impact on the Group.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (3) Standards or interpretations issued, revised or amended, by IASB which have not been endorsed by FSC, and not yet adopted by the Group as at the date when the Group's financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 20 "Regulatory Assets and Regulatory Liabilities"	1 January 2029

A. IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

B. IFRS 20 "Regulatory Assets and Regulatory Liabilities"

This Standard sets out the requirements for the recognition, measurement, presentation and disclosure of regulatory assets, regulatory liabilities, regulatory income and regulatory expense, and will replace IFRS 14 *Regulatory Deferral Accounts*.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The abovementioned standards and interpretations issued by the IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the new or amended standards and interpretations listed, it is not practicable to estimate their impact on the Group at this point in time. The remaining new or amended standards and interpretations have no material impact on the Group.

4. Summary of material accounting policies

(1) Statement of compliance

The consolidated financial statements of the Group for the six-month periods ended June 30, 2026 and 2025 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations"), and IAS 34 *Interim Financial Reporting* as endorsed and became effective by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars ("NT\$") unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statement

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- A. power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- B. exposure, or rights, to variable returns from its involvement with the investee, and
- C. the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- A. the contractual arrangement with the other vote holders of the investee
- B. rights arising from other contractual arrangements
- C. the Group's voting rights and potential voting rights

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Group obtains control and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Group loses control of a subsidiary, it:

- A. derecognizes the assets (including goodwill) and liabilities of the subsidiary
- B. derecognizes the carrying amount of any non-controlling interest
- C. recognizes the fair value of the consideration received
- D. recognizes the fair value of any investment retained
- E. reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss, or transfer directly to retained earnings if required by other IFRSs; and
- F. recognizes any resulting difference in profit or loss.

The consolidated entities are listed as follows:

Investor	Subsidiary	Main businesses	Percentage of ownership (%)		
			June 30, 2026	December 31, 2025	June 30, 2025
The Company	AmCad BioMed Corporation	Manufacturing of medical diagnostic produces	34.98%	34.98%	34.98%
AmCad BioMed Corporation	Broadsound Corporation	Manufacturing of medical equipment	40%	40%	40%

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Although the percentage of ownership interests in AmCad BioMed Corporation is less than 50%, the Company determined that it has control over AmCad BioMed Corporation. Considering the Group's absolute size of voting in AmCad BioMed Corporation and the relative size and dispersion of the shareholdings owned by other shareholders, the Group concluded that it has the practical ability to direct the relevant activities, and to appoint or approve the key management personnel of AmCad BioMed Corporation.

Although the percentage of ownership interests in Broadsound Corporation is less than 50%, AmCad BioMed Corporation determined that it has control over Broadsound Corporation. This is due to a combination of factors including the fact that the Company remains the single largest shareholder of Broadsound Corporation since the inception of the investment; the Company could obtain proxies to achieve relative majority in absence of contractual arrangement and the ability of the Company to appoint or approve the key management personnel of Broadsound Corporation who have the ability to direct the related activities.

(4) Foreign currency transactions

The Group's consolidated financial statements are presented in NT\$, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(5) Current and non-current distinction

An asset is classified as current when:

- A. The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- B. The Group holds the asset primarily for the purpose of trading
- C. The Group expects to realize the asset within twelve months after the reporting period
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. The Group expects to settle the liability in its normal operating cycle
- B. The Group holds the liability primarily for the purpose of trading
- C. The liability is due to be settled within twelve months after the reporting period
- D. The Group does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

(6) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within three months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(7) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 *Financial Instruments* are recognized initially at fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial assets or financial liabilities.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) the Group's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables, financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - (ii) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represent a recovery of part of the cost of investment.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial assets measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the statement of financial position.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follows:

- (a) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- (b) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (c) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d) For lease receivables arising from transactions within the scope of IFRS 16, the Group measure the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired
- (b) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- (c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial liabilities

Financial liabilities within the scope of IFRS 9 *Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by considering any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid or payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(8) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(9) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Raw materials – Purchase at actual cost, on a weighted average basis

Finished goods and work in progress – Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Rendering of services is accounted in accordance with IFRS 15 and not within the scope of inventories.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(10) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Building and structures	40~48 years
Machinery and equipment	3~15 years
Molding equipment	5 years
Office equipment	3~10 years
Other equipment	3~10 years
Leasehold improvements	The shorter of lease terms or economic useful lives

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

(11) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset;
and
- B. the right to direct the use of the identified asset.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use assets and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

At the commencement date, the Group measures the right-of-use assets at cost. The cost of the right-of-use assets comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use assets, the Group measures the right-of-use assets at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use assets applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use assets reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use assets from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use assets from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term.

The Group applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements of comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(12) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or infinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are recognized in profit or loss when the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditures, on an individual project, are recognized as an intangible asset when the Group can demonstrate:

- A. The technical feasibility of completing the intangible asset so that it will be available for use or sale
- B. Its intention to complete and its ability to use or sell the asset
- C. How the asset will generate future economic benefits
- D. The availability of resources to complete the asset
- E. The ability to measure reliably the expenditure during development

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Following initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. During the period of development, the asset is tested for impairment annually. Amortization of the asset begins when development is complete, and the asset is available for use. It is amortized over the period of expected future benefit.

A summary of the policies information applied to the Group's intangible assets is as follows:

	Proprietary technology	Royalties	Computer software
Useful lives	Finite	Finite	Finite
Amortization method used	Amortized on a straight-line basis over the period of the authorization	Amortized on a straight-line basis over the period of the authorization	Amortized on a straight-line basis over the estimated useful life
Internally generated or acquired	Acquired	Acquired	Acquired
Amortized lives	15 years	10~15 years	3~5 years

(13) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(14) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The liability to pay a levy is recognized progressively if the obligating event occurs over a period of time.

Provision for Warranties

A provision is recognized for expected warranty claims on products sold, based on past experience, management's judgments and other known factors.

(15) Revenue recognition

The revenue from the contract between the Group and the customer mainly includes sales of goods, royalty revenue, and rendering of services. The accounting treatments are described as follows:

Sales of goods

Revenue from sales of goods is recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main products of the Group are pharmaceutical drugs, dietary supplements, medical diagnosis system and medical devices.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group recognizes revenue from the description of the contracts.

The guarantees provided by the Group are based on the assurance that the provided products will operate as expected by customers and are handled in accordance with IAS 37.

The credit period of the Group's sale of goods is from 30 to 90 days. For most of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. However, for some contracts, part of the consideration was received from customers upon signing the contract, and the Group has the obligation to provide the services subsequently; accordingly, these amounts are recognized as contract liabilities.

Rendering of services

The Group charged a service fee by rendering medical equipment installation service and by rendering maintenance service. Revenue from rendering of services is recognized when the service is completed. The timing of recognizing revenue is when performance obligations are met.

(16) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

(17) Post-employment benefits

All regular employees of the Group are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Group. Therefore, fund assets are not included in the Group's consolidated financial statements.

For the defined contribution plan, the Group will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Group recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(18) Share-based payment transactions

The cost of equity-settled transactions between the Group and its employees is recognized based on the fair value of the equity instruments granted. The fair value of the equity instruments is determined by using an appropriate pricing model.

The cost of equity-settled transactions is recognized, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of profit or loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period.

No expense is recognized for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the entity or the employee are not met. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(19) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The additional income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

According to the temporary exception in the International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12), information about deferred tax assets and liabilities related to Pillar Two income tax will neither be recognized nor be disclosed.

Interim period income tax expense is accrued using the tax rate that would be applicable to expected total annual earnings, that is, the estimated average annual effective income tax rate applied to the pre-tax income of the interim period. The estimated average annual effective income tax rate only includes current income tax. The recognition and measurement of deferred tax follows annual financial reporting requirements in accordance with IAS 12. The Group recognizes the effect of change in tax rate for deferred taxes in full if the new tax rate is enacted by the end of the interim reporting period, by charging to profit or loss, other comprehensive income, or directly to equity.

(20) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred, the identifiable assets acquired and liabilities assumed are measured at acquisition date fair value. For each business combination, the acquirer measures any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are accounted for as expenses in the periods in which the costs are incurred and are classified under administrative expenses.

When the Group acquires a business, it assesses the assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at the acquisition-date fair value. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with IFRS 9 *Financial Instruments* either in profit or loss or as a change to other comprehensive income. However, if the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured as the amount of the excess of the aggregate of the consideration transferred and the non-controlling interest over the net fair value of the identifiable assets acquired and the liabilities assumed. If this aggregate is lower than the fair value of the net assets acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purpose and is not larger than an operating segment before aggregation.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Judgement

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

A. Operating lease commitment — Group as the lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. De facto control without a majority of the voting rights in subsidiaries

The Group does not have majority of the voting rights in certain subsidiaries. However, after taking into consideration factors such as absolute size of the Group's holding, relative size of the other shareholdings, how widely spread are the remaining shareholders, contractual arrangements between shareholders, potential voting rights, etc., the Group reached the conclusion that it has de facto control over these subsidiaries. Please refer to Note 4.(3) for further details.

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

6. Contents of significant accounts

(1) Cash and cash equivalents

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Cash on hand	\$69	\$69	\$69
Checking and saving accounts	35,079	26,226	10,565
Time deposits(Note)	49,100	60,500	96,100
Total	<u>\$84,248</u>	<u>\$86,795</u>	<u>\$106,734</u>

Note: The contract will expire within three months and it must be readily convertible to a known amount of cash and be subject to an insignificant risk of changes in value.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(2) Financial assets at fair value through profit or loss, current

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Mandatorily measured at fair value through profit or loss:			
Listed open-ended fund	\$90,550	\$2,500	\$189,736

Financial assets measured at fair value through profit or loss were not pledged.

(3) Financial assets measured at amortized cost

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Time deposits with more than three-months maturity	\$827,160	\$981,430	\$987,440
Advance receipt trust	764	792	862
Subtotal	827,924	982,222	988,302
Less: loss allowance	-	-	-
Total	\$827,924	\$982,222	\$988,302

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Current	\$827,160	\$981,430	\$987,440
Non-current	764	792	862
Total	\$827,924	\$982,222	\$988,302

The Group classified certain financial assets as financial assets measured at amortized cost. Please refer to Note 6.(16) for more details on loss allowance and Note 8 for more details on financial assets measured at amortized cost under pledge and Note 12 for more details on credit risk management.

(4) Financial assets at fair value through other comprehensive income, non-current

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Debt instrument investments measured at fair value through other comprehensive income			
Corporate bonds	\$101,323	\$100,000	\$-

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Equity instrument investments measured at fair value through other comprehensive income			
Stock of listed company	\$847,856	\$695,965	\$538,984
Stock of non-listed company	42,039	41,807	32,075
Total	<u>\$889,895</u>	<u>\$737,772</u>	<u>\$571,059</u>

Financial assets at fair value through other comprehensive income were not pledged.

The Group's equity instrument investments measured at fair value through other comprehensive income for the six months ended 30 June 2026 and 2025 are as follows:

A. Movement for the six months ended June 30, 2026

	Listed	Unlisted	Total
As of January 1, 2026	\$695,965	\$41,807	\$737,772
Additional investments	48,989	-	48,989
Fair value gains (losses)			
Related to investments held at the period end	102,902	2,115	105,017
Subtotal	847,856	43,921	891,778
The fair value of the investments at the date of derecognition	-	(1,883)	(1,883)
As of June 30, 2026	<u>\$847,856</u>	<u>\$42,039</u>	<u>\$889,895</u>
As of January 1, 2025	\$814,555	\$34,443	\$848,998
Additional investments	36,259	-	36,259
Fair value gains (losses)			
Related to investments held at the period end	(31,030)	(2,368)	(33,398)
Related to investments derecognized	10,524	-	10,524
Subtotal	830,308	32,075	862,383
The fair value of the investments at the date of derecognition	(291,324)	-	(291,324)
As of June 30, 2025	<u>\$538,984</u>	<u>\$32,075</u>	<u>\$571,059</u>

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Dividend income

	For the six-month periods ended June 30,	
	2026	2025
Related to investments held at the end of the reporting period	\$8,175	\$2,180
Related to investments derecognized during the period	-	-
Dividends recognized during the period	<u>\$8,175</u>	<u>\$2,180</u>

C. Derecognition

In consideration the Group's investment strategy, the Group disposed and derecognized partial equity instrument investments measured at fair value through other comprehensive income. Details on derecognition of such investments are as follows:

	For the six-month periods ended June 30,	
	2026	2025
The fair value of the investments at the date of derecognition	\$1,883	\$291,324
The cumulative gain or loss on disposal reclassified from other equity to retained earnings	-	42,019

(5) Accounts receivable and accounts receivable (including related parties)

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Accounts receivable	\$5,586	\$9,725	\$10,546
Less: loss allowance	(378)	(380)	(380)
Subtotal	<u>5,208</u>	<u>9,345</u>	<u>10,166</u>
Accounts receivable-related parties	29,464	26,991	23,988
Less: loss allowance	-	-	-
Subtotal	<u>29,464</u>	<u>26,991</u>	<u>23,988</u>
Total	<u>\$34,672</u>	<u>\$36,336</u>	<u>\$34,154</u>

Accounts receivables were not pledged.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Accounts receivables are generally on 30-90 day terms. The total carrying amount as of June 30, 2026, December 31, 2025 and June 30, 2025 are NT\$35,050 thousand, NT\$36,716 thousand and NT\$34,534 thousand, respectively. Please refer to Note 6.(16) for more details on loss allowance of accounts receivable for the six-month periods ended June 30, 2026 and 2025. Please refer to Note 12 for detail on credit risk management.

(6) Inventories

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Raw materials	\$21,285	\$24,679	\$24,037
Work in progress	55,226	61,369	49,110
Finished goods	33,114	39,787	71,354
Merchandise inventories	437	247	349
Total	<u>\$110,062</u>	<u>\$126,082</u>	<u>\$144,850</u>

The cost of inventories recognized in expenses amounted to NT\$22,371 thousand and NT\$21,313 thousand for the three-month periods ended June 30, 2026 and 2025, respectively, including gain from inventory price recovery and loss on inventory valuation and obsolescence in the amount of NT\$68 thousand and NT\$2,091 thousand, respectively.

The cost of inventories recognized in expenses amounts are NT\$44,683 thousand and NT\$42,007 thousand for the six-month periods ended June 30, 2026 and 2025, respectively. Including a reversal of inventory write-downs and loss on inventory valuation and obsolescence in the amount of NT\$869 thousand and NT\$3,715 thousand, respectively.

No inventories were pledged.

(7) Prepayments

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- A. AmCad BioMed Corporation-Proprietary technology: The technology contribution of NT\$26,500 thousand was made in consideration of shares as a form of capital injection in connection with the provided knowledge and expertise in Ultrasound CAD and cancer related diagnosis in 2009. In 2012, Tsung-Shann Jiang, one of the shareholders voluntarily surrendered his technology shares in the amount of NT\$6,250 thousand; therefore, the technology contribution amounted to NT\$20,250 thousand. In 2013, the technology contributed to the share price in the amount of NT\$54,450 thousand, totaling NT\$74,700 thousand, amortized over 15 years.
- B. AmCad BioMed Corporation-Royalties: The Company paid royalties in the amount of NT\$4,500 thousand to obtain the proprietary technology licensing of “AmCAD-US platform”, the above royalties amortized over 15 years.
- C. Goodwill and proprietary technology of AmCad BioMed Corporation acquired through business combinations are NT\$31,175 thousand and NT\$36,762 thousand, respectively. Proprietary technology is predicted to be amortized based on the accounting practice over the amortization period of 15 years.
- D. Computer software is amortized over 3~5 years by straight-line method.

(10) Other payables

(11) Post-employment benefits

Defined contribution plan

The Group adopts a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Act, monthly contributions shall not be less than 6% of the employees' monthly wages. The Group has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Expenses under the defined contribution plan for the three-month periods ended June 30, 2026 and 2025 were NT\$1,110 thousand and NT\$1,228 thousand, respectively.

Expenses under the defined contribution plan for the six-month periods ended June 30, 2026 and 2025 were NT\$2,260 thousand and NT\$2,472 thousand, respectively.

(12) Provisions, current

	<u>Warranties</u>
As of January 1, 2026	\$674
Arising during the period	251
Reverse during the period	<u>(399)</u>
As of June 30, 2026	<u>\$526</u>

(13) Equities

A. Common stock

- (a) The Company's authorized capital were both NT\$3,000,000 thousand as of June 30, 2026, December 31, 2025 and June 30, 2025; while the issued capital were all NT\$1,986,189 thousand. The Company has authorized capital were all 300,000 thousand shares, and were all issued 198,619 thousand common shares, each at a par value of NT\$10, entitled to voting rights and to the receipt of distributed dividends. All of the shares are common stock.
- (b) On June 16, 2009, in the meeting of shareholders, a resolution to issue 12,861 thousand private shares with the same rights and obligations as ordinary shares was passed. However, the Company could not achieve the earnings criteria, so the private shares still have not be transferred for public trading.
- (c) The Company was authorized to issue employee share option. Each unit entitles an optionee to subscribe for 1,000 shares of the Company's common shares. Please refer to Note 6.(14) for more details on above-mentioned share-based payment transactions.

B. Capital surplus

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Changes in ownership interests	\$5,018	\$5,018	\$5,018
Employee stock options	1,572	1,331	1,019
Total	<u>\$6,590</u>	<u>\$6,349</u>	<u>\$6,037</u>

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

C. Retained earnings and dividend policies

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- (a) Payment of all taxes and dues;
- (b) Offset prior years' operation losses;
- (c) Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve;
- (d) Set aside or reverse special reserve in accordance with law and regulations; and
- (e) Proposing a distribution plan by the Company's board of directors, but only a fraction of 10% of any remaining profit together with any undistributed retained earnings, and which should be resolved in the shareholders' meeting for the distribution of dividends and bonus to shareholders.

The Company's dividend distribution policy must consider the current and future investment environment, funding needs, domestic and international competitiveness, and capital budgeting, while balancing shareholder interests and the Company's long-term financial planning. Dividends will be distributed in appropriate proportions of cash dividends and stock dividends. If stock dividends are distributed, they shall account for at least 10% of the total dividends for the year. Each year, the Board of Directors will prepare a distribution proposal to be submitted to the shareholders' meeting. For information regarding the basis for estimating employee compensation and director remuneration, as well as the amounts recognized, please refer to Note 6. (18).

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

Pursuant to existing regulations, the Company is required to set aside additional special reserve equivalent to the net debit balance of the other components of shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

The shareholder's meetings resolved the 2025 and 2024 earnings distribution on June 9, 2026 and June 4, 2025, respectively; the company resolved not to distribute earnings since the accumulated deficits had yet to be covered.

Phytohealth Corporation and Its Subsidiaries

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

D. Non-controlling interests

	For the six-month periods ended June 30,	
	2026	2025
Beginning balance	\$420,868	\$467,020
Net loss attributable to non-controlling interests	(25,514)	(28,363)
Other comprehensive income, net of tax	14,629	(3,350)
Employee stock options of subsidiaries	251	294
Ending balance	<u>\$410,234</u>	<u>\$435,601</u>

E. The earnings distribution of the Company and its subsidiaries were bases on their regulations, and there were no limitations in any rule.

(14) Share-based payment plans

Certain employees of the Group are entitled to share-based payment as part of their remunerations. Services are provided by the employees in return for the equity instruments granted. These plans are accounted for as equity-settled share-based payment transactions.

A. Share-based payment plan for employees of the Company

The Company was authorized on January 10, 2018, July 5, 2023 and April 15, 2026 by the Securities and Futures Bureau of the FSC, Executive Yuan, to issue employee share options with a total number of 200 units, 1,000 units and 1,000 units. Each unit entitles the holder to subscribe for 1,000 shares of the Company's ordinary shares, and the exercise price of the options was set as at the closing price of the Company's ordinary shares on the grant date. The option holders may exercise the options in accordance with certain schedules as prescribed by the plan starting 2 years from the grant date. Settlement upon the exercise of the options will be made through the issuance of new shares by the Company.

The fair value of the share options is estimated at the grant date using a Black-Scholes option pricing-model, taking into account the terms and conditions upon which the share options were granted.

The relevant details of the aforementioned share-based payment plan are as follows:

Date of grant	Total number of share options granted (in units)	Exercise price of share options (NT\$)
2018.07.31	50	\$21.50
2023.08.02	115	\$22.00
2025.04.30	285	\$13.30
2026.05.15	20	\$11.70

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The following table contains further details on the aforementioned share-based payment plan:

	For the six-month periods ended June 30,			
	2026		2025	
	Number of share options outstanding (in units)	Weighted average exercise price of share options (NT\$)	Number of share options outstanding (in units)	Weighted average exercise price of share options (NT\$)
Outstanding at beginning of period	360	\$15.50	145	\$21.90
Forfeited	20	\$11.70	285	\$13.30
Outstanding at end of period	380	\$15.30	430	\$16.20
Exercisable at end of period	45		30	
For share options granted during the period, weighted average fair value of those options at the measurement date (NT\$)		\$3.1332		\$3.4689

The information on the outstanding share options as of June 30, 2026 and 2025 is as follows:

	Range of exercise price	Weighted average remaining contractual life (Years)
As of June 30, 2026		
share options outstanding at the end of the period	\$22.00	2.08
share options outstanding at the end of the period	\$13.30	2.82
share options outstanding at the end of the period	\$11.70	3.86
As of December 31, 2025		
share options outstanding at the end of the period	\$22.00	2.58
share options outstanding at the end of the period	\$13.30	3.32
As of June 30, 2025		
share options outstanding at the end of the period	\$21.50	0.08
share options outstanding at the end of the period	\$22.00	3.08
share options outstanding at the end of the period	\$13.30	3.82

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The following table lists the inputs to the model used for the plan granted on May 15, 2026 :

	May 15, 2026
Dividend yield (%)	-
Expected volatility (%)	31.92%
Risk-free interest rate (%)	1.46%
Expected option life (Years)	3.88
Weighted average share price (\$)	\$11.70
Option pricing model	Black-Scholes

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

B. Share-based payment plan for employees of the subsidiaries

Share-based payment plan for employees of Amcad BioMed Corporation:

On July 20, 2017, April 17, 2019, July 29, 2021, July 10, 2023 and January 8, 2026 the Company was authorized by the Securities and Futures Bureau of the FSC, Executive Yuan, to issue employee share options with a total number of 600, 500, 1,000, 500 and 500 units. Each unit entitles an optionee to subscribe for 1,000 shares of the Company's common shares. The exercise price of the option was set at the closing price of the Company's common share on the grant date. The optionee may exercise the options in accordance with certain schedules as prescribed by the plan starting 2 years from the grant date. Settlement upon the exercise of the options will be made through the issuance of new shares by the Company.

The fair value of the share options is estimated at the grant date using a Black-Scholes option pricing-model, taking into account the terms and conditions upon which the share options were granted.

The relevant details of the aforementioned share-based payment plan are as follows:

Date of grant	Total number of share options granted (in units)	Exercise price of share options (NT\$)
2017.08.04	160	28.89
2019.08.02	290	24.42
2020.02.21	140	22.46
2021.08.05	260	16.11

(15) Operating revenue

A. Disaggregation of revenue

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2026	2025	2026	2025
Revenue from contracts with customers				
Sale of goods	\$32,967	\$28,241	\$65,119	\$56,664
Rendering of services	1,977	2,028	3,379	3,604
Others contract revenue	21	21	32	32
Subtotal	34,965	30,290	68,530	60,300
Others	944	742	1,898	1,270
Total	<u>\$35,909</u>	<u>\$31,032</u>	<u>\$70,428</u>	<u>\$61,570</u>

Revenues are recognized when they satisfy the performance obligation and the recognition timing.

B. Analysis of revenue from contracts with customers during the six-month period ended June 30, 2026 and 2025 are as follows:

Contract balances

Contract liabilities, current

	As of			
	June 30, 2026	December 31, 2025	June 30, 2025	January 1, 2025
Sales revenue	<u>\$1,960</u>	<u>\$1,133</u>	<u>\$1,688</u>	<u>\$1,189</u>

The significant changes in the Group's balances of contract liabilities during the six-month ended June 30, 2026 and 2025 are as follows:

	For the six-month periods ended June 30,	
	2026	2025
The opening balance transferred to revenue	\$(1)	\$(139)
Increase in receipts in advance during period (excluding the amount incurred and transferred to revenue during the period)	828	638

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(16) Expected credit loss

The credit risk for the Group's financial assets measured at amortized cost are assessed as low (the same as the assessment result in the beginning of the period). As the trade partners are financial institutions with good credit, the loss allowance is NT\$0 thousand measured at a loss ratio of 0%.

The Group measures the loss allowance of its accounts receivable (including notes receivable and accounts receivable-related parties) at an amount equal to lifetime expected credit losses. The assessment of the Group's loss allowance as at June 30, 2026, December 31, 2025 and June 30, 2025 are as follows:

The Group considers the grouping of accounts receivable by counterparties' credit rating and the historical credit loss experience shows that different customer segments do not have significantly different loss patterns. Therefore, the loss allowance of contact assets is measured with no distinction between groups and its loss allowance is measured by using a provision matrix, details are as follows:

As of June 30, 2026	Not yet due	Overdue				Total
	(Note)	<=90 days	91~180 days	181~365 days	>=366 days	
Gross carrying amount	\$31,287	\$3,335	\$-	\$50	\$378	\$35,050
Loss ratio	-	-	-	-	100%	
Lifetime expected credit losses	-	-	-	-	(378)	(378)
Carrying amount						<u>\$34,672</u>

As of December 31, 2025	Not yet due	Overdue				Total
	(Note)	<=90 days	91~180 days	181~365 days	>=366 days	
Gross carrying amount	\$31,005	\$5,198	\$125	\$8	\$380	\$36,716
Loss ratio	-	-	-	-	100%	
Lifetime expected credit losses	-	-	-	-	(380)	(380)
Carrying amount						<u>\$36,336</u>

As of June 30, 2025	Not yet due	Overdue				Total
		<=90 days	91~180 days	181~365 days	>=366 days	
Gross carrying amount	\$28,672	\$592	\$2,389	\$2,501	\$380	\$34,534
Loss ratio	-	-	-	-	100%	
Lifetime expected credit losses	-	-	-	-	(380)	(380)
Carrying amount						<u>\$34,154</u>

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The movement in the provision for impairment of accounts receivable during the six-month periods June 30, 2026 and 2025 is as follows:

	Accounts receivable
January 1, 2026	\$380
Addition/(reversal)	-
Write off	(2)
June 30, 2026	<u>\$378</u>
January 1, 2025	\$380
Addition/(reversal)	-
Write off	-
June 30, 2025	<u>\$380</u>

(17) Operating leases

A. Group as a lessee

The Group leases various properties, including buildings and structures and transportation equipment. The lease terms range from 1 to 10 years.

The Group's leases effect on the financial position, financial performance and cash flows are as follows:

(a) Amounts recognized in the balance sheet

(i) Right-of-use assets

The carrying amount of right-of-use assets

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Buildings and structures	\$19,506	\$13,873	\$19,111
Transportation equipments	-	-	35
Total	<u>\$19,506</u>	<u>\$13,873</u>	<u>\$19,146</u>

During the six-month periods ended June 30, 2026 and 2025, the Group's additions to right-of-use assets amounting to NT\$10,923 thousand and NT\$9,521 thousand, respectively.

(ii) Lease liabilities

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Lease liabilities	\$21,265	\$15,727	\$21,185
Current	\$8,520	\$7,461	\$9,357
Non-current	\$12,745	\$8,266	\$11,828

Please refer to Note 6.(19) (D) for the financial costs on lease liabilities recognized during the six-month periods ended June 30, 2026 and 2025 and refer to Note 12.(5) liquidity risk management for the maturity analysis for lease liabilities.

(b) Amounts recognized in the statement of profit or loss

Depreciation charge for right-of-use assets

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2026	2025	2026	2025
Buildings and structures	\$2,655	\$2,619	\$5,290	\$5,259
Transportation equipments	-	106	-	211
Total	\$2,655	\$2,725	\$5,290	\$5,470

(c) Income and costs relating to leasing activities

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2026	2025	2026	2025
The expense relating to short-term leases	\$1	\$42	\$27	\$109
The expense relating to leases of low-value assets (not including the expense relating to short-term leases of low-value assets)	13	14	26	28

(d) Cash outflow relating to leasing activities

During the six-month periods ended June 30, 2026 and 2025, the Group's total cash outflows for leases amounting to NT\$5,671 thousand and NT\$5,955 thousand, respectively.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(e) Other information relating to leasing activities

(i) Extension and termination options

Some of the Group's agreement contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Group has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group. After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Group is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

B. Group as a lessor

Leases of owned properties, plant and equipment are classified as operating leases as they do not transfer substantially all the risks and rewards incidental to ownership of underlying assets.

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2026	2025	2026	2025
Lease income for operating leases				
Income relating to fixed lease				
payments and variable lease				
payments that depend on an				
index or a rate	\$1,395	\$1,187	\$2,800	\$2,133

For operating leases entered by the Group, the undiscounted lease payments to be received and a total of the amounts for the remaining years as at June 30, 2026, December 31, 2025 and June 30, 2025 are as follows:

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Within a year	\$5,194	\$5,043	\$3,911
More than one year but less than two years	2,895	2,318	2,667
More than two year but less than three years	543	526	1,428
Total	\$8,632	\$7,887	\$8,006

Amortization	-	3,392	3,392	-	3,392	3,392

According to the Company's Articles of Incorporation, 3%~6% of profit of the current year is distributable as employees' compensation (no less than 20% of said profit shall be allocated as employee compensation to non-managerial employees.) and no higher than 4% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of board of directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition, thereto a report of such distribution is submitted to the shareholders' meeting. Information on the board of directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Because of the operating loss for the six-month periods ended June 30, 2026 and 2025, there was no estimated amounts of the employee bonuses and remuneration to directors and supervisors.

Not to be reclassified to profit or loss in subsequent periods:					
Unrealized loss from equity instrument investments measured at fair value through other comprehensive loss	<u>\$106,340</u>	<u>\$-</u>	<u>\$106,340</u>	<u>\$-</u>	<u>\$106,340</u>

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For the six-month period ended June 30, 2025:

	Reclassification adjustments	Other comprehensive	Other comprehensive
Arising during the period	during the period	income-before tax	Tax income (expense)
			income, net of tax
Not to be reclassified to profit or loss in subsequent periods:			
Unrealized loss from equity instrument investments measured at fair value through other comprehensive loss	<u>\$ (22,874)</u>	<u>\$ -</u>	<u>\$ (22,874)</u>

(21) Income tax

A. The major components of income tax expense (income) are as follows:

Income tax expense (income) recognized in profit or loss

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2026	2025	2026	2025
Current income tax expense (income):				
Adjustments in respect of current income tax of prior periods	<u>\$ 12</u>	<u>\$ (15)</u>	<u>\$ 12</u>	<u>\$ (15)</u>
Total income tax expense (income)	<u>\$ 12</u>	<u>\$ (15)</u>	<u>\$ 12</u>	<u>\$ (15)</u>

Income tax relating to components of other comprehensive income

For the three-month periods ended June 30, 2026 and 2025, the Group recognized deferred income tax expense to be both NT\$0 thousand.

For the six-month periods ended June 30, 2026 and 2025, the Group recognized deferred income tax expense to be both NT\$0 thousand.

B. The assessment of income tax returns

As of June 30, 2026, the assessment of income tax returns of the Company and its subsidiary is as follows:

	The assessment of income tax returns
The Company	Assessed and approved up to 2024
Subsidiary-AmCad BioMed Corporation	Assessed and approved up to 2024
Subsidiary-Broadsound Corporation	Assessed and approved up to 2024

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(22) Loss per share

Basic loss per share amounts are calculated by dividing net loss for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted gain per share amounts are calculated by dividing the net loss attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2026	2025	2026	2025
Loss before tax attributable to ordinary equity holders of the Company (in thousand NT\$)	<u><u>\$(6,095)</u></u>	<u><u>\$(21,855)</u></u>	<u><u>\$(21,613)</u></u>	<u><u>\$(36,443)</u></u>
Weighted average number of ordinary shares outstanding-for basic earnings per share (thousand shares)	<u><u>198,619</u></u>	<u><u>198,619</u></u>	<u><u>198,619</u></u>	<u><u>198,619</u></u>
Earnings (loss) per share-basic (in NT\$)	<u><u>\$(0.03)</u></u>	<u><u>\$(0.11)</u></u>	<u><u>\$(0.11)</u></u>	<u><u>\$(0.18)</u></u>

The Company's employee stock options have anti-dilutive effect for the six-month periods ended June 30, 2026 and 2025 when the Company encounters loss. Therefore, calculations of diluted loss per share is no required.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date the financial statements were authorized for issue.

(23) Subsidiary that have material non-controlling interests:

Financial information of subsidiary that have material non-controlling interests is as follows:

Proportion of equity interest held by non-controlling interests:

Total	<u>\$100</u>	<u>\$6,100</u>	<u>\$4,100</u>	

9. Commitments and contingencies

- (1) AmCad BioMed Corporation with the National Taiwan University and Professor King-Jen Chang to obtain the specialized technology licensing of “Thyroid CAD system.” The contract price of NT\$ 2,500 thousand was paid with NT\$ 1,000 thousand cash and the Company’s shares at face value NT\$ 1,500 thousand. The total payment was recognized as intangible asset. The term of the agreement was six years, from January 23, 2009 to January 22, 2015. The agreement will extend automatically annually when the term expires. According to the agreement, the Company paid royalties depending on the net sales generated from the medical equipment.
- (2) AmCad BioMed Corporation entered into an agreement with the National Taiwan University and Professor Chiung-Nien Chen to obtain the specialized technology licensing of “AmCAD-US platform.” The contract price of NT\$ 4,500 thousand was paid in cash. The agreement came into effect on July 1, 2014 and will expire in 20 years following the final application date of R.O.C. patent or American patent. The term of the patent right shall ends on February 19, 2034. The Company shall pay royalties depending on the sales of the products that apply this technology during the 10 years following the day the inspection registration is obtained.

10. Losses due to major disasters

None.

11. Significant subsequent events

None.

Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group has established appropriate policies, procedures and internal controls for the aforementioned financial risk management in accordance with the relevant regulations. Important financial activities have to be reviewed by the board of directors and the audit committee in accordance with relevant regulations and internal control systems. During the implementation of the financial management activities, the Group must strictly comply with the relevant provisions of the financial risk management.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency). The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period.

The Group's foreign currency risk is mainly related to the volatility in the exchange rates for USD. When NTD strengthens/weakens against USD by 1%, the profit for the six-month periods ended June 30, 2026 and 2025 were decreased/increased by NT\$5 thousand and NT\$59 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's bank deposit with variable interest rates and guarantee deposit received.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as of the end of the reporting period, including bank deposit with variable interest rates and guarantee deposit received. At the reporting date, an increase/decrease of 10 basis points of interest rate in a reporting period could cause the profit for the six-month periods ended June 30, 2026 and 2025 to increase/decrease by NT\$916 thousand and NT\$1,098 thousand, respectively.

Equity price risk

The fair value of the Group's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified under financial assets measured at fair value through other comprehensive income. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments.

A change increase/decrease of 5% in the price of the listed companies stocks classified as equity instrument investments measured at fair value through other comprehensive income could cause the other comprehensive income for the six-month periods ended June 30, 2026 and 2025 to increase/decrease by NT\$47,459 thousand and NT\$26,949 thousand, respectively.

Please refer to Note 12.(8) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4) Credit risk management

The Group's exposure to credit risk arises from potential default of the counterparty or other third party. The level of exposure depends on several factors including concentrations of credit risk, components of credit risk, the price of contract and customer credit policy. For the six-month periods ended June 30, 2026 and 2025, the Group's credit risk amount is estimated from the contracts with positive fair value on the balance sheet date.

The Group's exposure to credit risk arising from the default of counterparties is limited to the carrying amount of these instruments. The Group mitigates the credit risks from financial institutions by limiting its counterparties to only reputable domestic or international financial institutions with good credit standing and the Group has no derivative financial instrument transactions. Consequently, there is no significant credit risk for these counterparties.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit limits are established for all customers based on their financial position, ratings from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. The Group's exposure to credit risk arising from the default of counterparties is limited to the carrying amount of accounts receivable and notes receivable.

The Group adopted IFRS 9 to assess the expected credit losses. Except for the loss allowance of accounts receivable is measured at lifetime expected credit losses, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories. The Group makes an assessment at each reporting date as to whether the credit risk still meets the conditions of low credit risk and then further determines the method of measuring the loss allowance and the loss ratio.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5) Liquidity risk management

The Group's investment in the financial assets accounted for at fair value through profit or loss has active market. The Group expected the financial assets to be sold easily in the market at a price close to fair value. The Group is not expected to have liquidity risk. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest.

Non-derivative financial liabilities

	Less than 1 year	2 to 3 years	4 to 5 years	> 5 years	Total
As of June 30, 2026					
Payables	\$27,501	\$-	\$-	\$-	\$27,501
Lease liabilities (Note)	8,874	10,541	2,475	-	21,890
Guarantee deposits	-	316	-	-	316
As of December 31, 2025					
Payables	\$35,856	\$-	\$-	\$-	\$35,856
Lease liabilities (Note)	7,599	4,789	3,673	-	16,061
Guarantee deposits	-	316	-	-	316

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

	Less than 1 year	2 to 3 years	4 to 5 years	> 5 years	Total
As of June 30, 2025					
Payables	\$26,677	\$-	\$-	\$-	\$26,677

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- (a) The carrying amount of cash and cash equivalents, accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- (b) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.
- (c) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- (d) Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc).
- (e) The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Fair value of financial instruments measured at amortized cost

Other than cash and cash equivalents, accounts receivable, accounts payable and other current liabilities whose carrying amount approximate their fair value, the fair value of the Group's financial assets and financial liabilities measured at amortized cost is listed in the table below:

	Carrying amount as of		
	June 30, 2026	December 31, 2025	June 30, 2025
Financial assets:			
Financial assets at amortized cost	\$827,924	\$982,222	\$988,302
	Fair value as of		
	June 30, 2026	December 31, 2025	June 30, 2025
Financial assets:			
Financial assets at amortized cost	\$827,924	\$982,222	\$988,302

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12.(8) for fair value measurement hierarchy for financial instruments of the Group.

(8) Fair values measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.
- Level 3: Unobservable inputs for the assets or liabilities.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

As of June 30, 2026

	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss				
Listed open-ended fund	\$90,550	\$-	\$-	\$90,550
Financial assets at fair value through other comprehensive income				
Equity instrument measured at fair value through other comprehensive income				
Stock of listed company	\$847,856	\$-	\$-	\$847,856
Stock of unlisted company	-	-	42,039	42,039
Debt instrument investments measured at fair value through other comprehensive income				
Corporate bonds	101,323	-	-	101,323

As of December 31, 2025

	Level 1	Level 2	Level 3	Total

Transfers between Level 1 and Level 2 during the period

During the six-month periods ended June 30, 2026 and 2025, there were no transfers between Level 1 and Level 2 fair value measurements.

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy for movements during the period :

The following table presents the reconciliation of the opening and closing balances for the Group's assets and liabilities subject to recurring fair value measurements in Level 3 of the fair value hierarchy.

	<u>Financial assets at fair value through other comprehensive income</u>
	<u>Stock</u>
As of January 1, 2026	\$41,807
Disposition for the six-months periods ended June 30, 2026	(1,883)
Unrealized loss from financial assets measured at fair value through other comprehensive income	2,115
As of June 30, 2026	<u>\$42,039</u>
Unrealized losses for the six-month period ended June 30, 2026	<u>\$2,115</u>

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

	Financial assets at fair value through other comprehensive income
	<u>Stock</u>
As of January 1, 2025	\$34,443
Disposition for the six-months periods ended June 30, 2025	-
Unrealized gain from financial assets measured at fair value through other comprehensive income	<u>(2,368)</u>
As of June 30, 2025	<u>\$32,075</u>
Unrealized losses for the six-month period ended June 30, 2025	<u>\$(2,368)</u>

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurement categorized within Level 3 of the fair value hierarchy is as follows:

As of June 30, 2026

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Asset-based approach	discount for lack of marketability	10%~20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in decrease/increase in the Group's equity by NT\$8,315 thousand

As of December 31, 2025

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Asset-based approach	discount for lack of marketability	10%~20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in decrease/increase in the Group's equity by NT\$11,820 thousand

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

As of June 30, 2025

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets at fair value through other comprehensive income					
Stock	Market method	Volatility	20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in decrease/increase in the Group's equity by NT\$598 thousand
Financial assets at fair value through other comprehensive income					
Stock	Asset-based approach	Volatility	10%~20%	The higher the volatility, the lower the fair value of the stocks.	20% increase (decrease) in the volatility would result in decrease/increase in the Group's equity by NT\$10,197 thousand

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The external evaluation institute ensures the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The group's accounting department analysis the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies at each reporting date.

C. Fair value measurement hierarchy of the Group's assets and liabilities not measured at fair value but for which the fair value is disclosed.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

As of June 30, 2026

As of June 30, 2025

	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value but for which the fair value is disclosed:				
Financial assets measured at amortized cost	\$988,302	\$-	\$-	\$988,302

(9) Capital risk management

The primary objective of the Group's capital management is to ensure that it continues to operate and maintains an optimal capital structure in order to reduce the capital cost. The strategy of the Group in 2026 is the same as that in 2025. The Group did not borrow cash from banks and monitored the capital by debt to equity ratio. The Group's debt to equity ratio is as follows (in thousands):

	As of		
	June 30, 2026	December 31, 2025	June 30, 2025
Total liabilities	\$58,220	\$59,424	\$56,950
Total equity	\$2,353,358	\$2,293,653	\$2,281,178
Ratio	2.47%	2.59%	2.50%

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(10) Significant assets and liabilities denominated in foreign currencies

Information regarding the significant assets and liabilities denominated in foreign currencies is listed below (in thousands):

As of June 30, 2026			
	Foreign Currency	Exchange rate	NT\$
Financial assets			
Monetary item:			
USD	\$123	31.850	\$3,928
CNY	3,372	4.690	15,816
HKD	202	4.061	820
Financial liabilities			
Monetary item:			
USD	\$54	31.850	\$1,713
CNY	40	4.690	187
As of December 31, 2025			
	Foreign Currency	Exchange rate	NT\$
Financial assets			
Monetary item:			
USD	\$159	31.430	\$4,985
CNY	1,302	4.496	5,856
Financial liabilities			
Monetary item:			
CNY	\$707	4.496	\$3,178
As of June 30, 2025			
	Foreign Currency	Exchange rate	NT\$
Financial assets			
Monetary item:			
USD	\$202	29.300	\$5,927

The above-mentioned foreign book value was disclosed as functional currencies.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

13. Other disclosure

(1) Information of significant transactions:

A. Financing provided to others: None.

B. Endorsement/Guarantee provided to others: None.

C. Securities held: Please refer to Attachment 1.

D. Related party transactions for purchases and sales amounts exceeding the lower of NT\$100 million or 20% of the capital stock: None.

E. Receivables from related parties with amounts exceeding the lower of NT\$100 million or 20% of capital stock: None.

F. Others: business relationships and significant transaction between parent and subsidiary and among subsidiaries: None.

(2) Information on investees

Names, locations, and related information of investees over which Phytohealth Corporation exercises significant influence (excluding information on investment in Mainland China): Please refer to Attachment 2.

(3) Information on investments in mainland China

None.

14. Segment information

For management purpose, the Group operating units were divided according to the business provided. After the implementation of the quantitative threshold, the Group has the following three reportable operating segments:

- (1) Pharmaceutical drugs and dietary supplement: The segment is mainly responsible for Chinese medicine and new pharmaceutical manufacture and sale.
- (2) Medical diagnostic products: The segment is mainly responsible for the development and sales of smart medical imaging diagnostic software device.
- (3) Precision medical equipment: The segment is mainly responsible for research, development, manufacturing and sales of high-end ultrasonic probes.

Phytohealth Corporation and Its Subsidiaries
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured based on accounting policies consistent with those in the consolidated financial statements.

(1) Information on profit or loss, assets and liabilities of the reportable segment

For the three-month periods ended June 30, 2026

	Pharmaceutical drug and dietary supplements	Medical diagnostic	Precision medical equipment	Subtotal	Adjustment and elimination	Consolidated
Revenue from external customer	\$29,191	\$2,098	\$4,620	\$35,909	\$-	\$35,909
